

K-LOVE is the only contemporary Christian radio station I listen to. Even though it is commercial free this station still provides important information about local seminars, concerts and volunteer events through public service announcements. Without this station I would not have the option of clean, wholesome family listening. The other local stations are full of radio personalities that tell crass jokes and use foul language. The song lyrics that are played on most local stations are not for children's ears and I find them objectionable. K-LOVE is Christian radio that promotes family values, offers commuters a chance to grow spiritually and enlightens and uplifts the hearts and minds of K-LOVE listeners.

Free speech allows many views to be expressed but if the FM translator that is used by K-LOVE is forced off the air then God's message will not be heard by anyone. There is so much garbage on the airwaves now please do not let Low Power FM stations takeover the spot on the airwaves that K-LOVE now holds.
